NIKHIL DUBEY

SKILLS

- **Programming Languages:** Java, JavaScript (ES6+), TypeScript
■■■■■
- **Frontend Technologies:** React, React Hooks, Redux, Context API, Angular, HTML5, CSS3
■■■■■
- **Backend Technologies:** Spring Boot, Hibernate, Node, Express, RESTful APIs
■■■■■
- **Databases:** PostgreSQL, MySQL
■■■■■
- **DevOps and Tools:** Git, Docker, Jenkins (CI/CD), Kubernetes, Maven, Gradle, AWS (EC2, S3, RDS), Monitoring Tools (Prometheus, Grafana), Elastic
■■■■■
- **Testing and Debugging:** Unit Testing (JUnit, Mockito), Integration Testing, Debugging Techniques
■■■■■
- **Development Practices:** Agile Development, API Integration and Documentation (Swagger), Performance Optimization, Database Management, Cloud Deployment
■■■■■

PROFESSIONAL SUMMARY

Innovative and highly motivated individual with a strong foundation in **Java programming** and **web development principles**. Possesses expertise in **front-end and back-end technologies**, including **JavaScript frameworks** and **RESTful APIs**. Dedicated to utilizing **technical proficiency** and **innovative thinking** to create **efficient and impactful software solutions**. Proficient in modern web technologies such as **Web3.0**, **JavaScript**, and **Python**, skilled in developing **responsive, user-friendly interfaces** and **robust server-side architecture**. Aims to leverage skills in building **impactful, scalable, and innovative web applications**.

WORK HISTORY

July 2022 - Current

Capgemini (Mercedes-Benz) - Java Full Stack Developer, Bangalore, Karnataka

- Actively contributed to the frontend team by utilizing **GOOL** and **DOJO technologies** to develop and enhance **user interface functionalities**, improving **user experience by 25%**.
- Regularly interacted with clients to understand their requirements, provide actionable suggestions, and successfully implement changes, receiving recognition for delivering **user-centric solutions**.
- Successfully transitioned a legacy portal built with **DOJO** to a modern UI using **React**, leveraging **React Hooks** and **Context API** to enhance **performance** and **maintainability**, making the system **80% more efficient** and reducing **load times by 30%**.

- Spearheaded optimizations that resulted in a **20% reduction** in development overhead and improved **code readability** for future scalability.
- Developed over **15 RESTful APIs** using **Spring Boot**, enhancing **data management** and improving **system performance by 30%**.
- Led the creation of APIs for the **WeSynergize platform**, reducing **development time by 25%** and receiving recognition for contributions.
- Contributed to a **hackathon-winning project** that optimized **API calls** for a legacy portal, decreasing **memory usage by 40%** and improving **response times by 35%**.

May 2021 - June 2021

The Entrepreneur Network - Angular Developer and Tester (Intern), Indore, Madhya Pradesh

- Developed a dynamic **music streaming website** similar to **Gaana** and **Wynk** using **Angular**, incorporating features like **playlist creation**, **song search**, and **seamless audio playback**.
- Leveraged Angular's **two-way data binding** and **component-based architecture** to ensure a **responsive** and **user-friendly interface**, achieving **99% uptime** and supporting **10,000 concurrent users** during testing.
- Integrated **APIs for real-time song streaming** and **metadata retrieval**, enhancing functionality and providing a smooth **user experience**.

February 2021 - April 2021

SagurIT - React Native Developer (Intern), Indore, Madhya Pradesh

- Communicated directly with clients to gather requirements, provide regular updates, and implement feedback, achieving a **95% client satisfaction rate**.
- Resolved **10+ technical issues** by leveraging advanced **debugging techniques**, reducing **app crash rates by 30%**, and enhancing **overall performance by 20%**.
- Implemented **AsyncStorage** and **Redux** for efficient **state management**, significantly improving **app reliability** and **scalability** for long-term usability.
- Delivered a **user-centric mobile application**, ensuring **smooth functionality** and an **intuitive interface**, resulting in improved **user engagement**.

PROJECTS

- **CRIMINAL DETECTOR:** Created a **criminal detection system** with advanced **image matching**, **multi-modal data integration**, **real-time processing**, scalability, and security. Designed a **user-friendly interface**, integrated with **law enforcement databases (mock)**, and utilized **machine learning** for continuous improvement.
- **FEM PLAYER:** Developed as part of a **Smart India Hackathon project**, this system utilizes **facial expression recognition** to play music matching the user's mood. Seamlessly integrates **emotion analysis** for a **personalized music experience**.
- **STUPRO:** A **web application** that assists students and newcomers by providing information on **affordable accommodations**, laundry services, and more. It fosters connections between users and service providers, incorporating **competitive business analysis** for **informed decision-making**.
- **Baba Recharge Offer:** A dynamic **MLM platform** empowering users to become **certified agents** for just ₹99. Provides access to **lucrative referral incentives** and easy mobile recharge options. Revolutionizes **network marketing** with a **user-friendly interface**, fostering empowerment and prosperity.
